Escrow Analysis Statement

Dear: JOHN SMITH

As your servicer, we have safeguards in place to make sure there’s enough money to make the tax and insurance payments. These safeguards protect you from unexpected payment changes. **Based on our review, the escrow account has a shortage. See below for details of what changed as well as when the new monthly payment will take effect.**

1. Your New Monthly Mortgage Payment

The new monthly mortgage payment includes 1) changes to the escrow payment amount to help prevent a shortage next year, and 2) a payment towards the existing shortage amount. See Section 2 for what’s changed in the escrow account and Section 3 for shortage details. **WE’LL AUTOMATICALLY SPREAD THE SHORTAGE OVER 12 MONTHS.**

New monthly mortgage payment
\$1,448.71
Effective Date: November 2025

New Monthly Payment		
	Current	New
Principal and Interest Amount	\$798.02	\$798.02
Escrow Payment	\$550.04	\$582.83
Surplus/Shortage Amount		\$67.86
Total Monthly Payment	\$1,348.06	\$1,448.71
Difference in Monthly Payment: \$100.65		

PLEASE NOTE: If you use a bill pay service to make the payments, YOU must adjust the amount with your provider. If you’re enrolled in Autopay, WE’LL automatically adjust the payment.

2. What Changed?

The new escrow payment includes changes to the tax and insurance amounts. The chart below shows what has changed in the escrow account. The anticipated annual escrow amounts include changes in taxes and Insurance.

HERE’S HOW TO CALCULATE YOUR NEW MONTHLY ESCROW PAYMENT		
Total [Taxes and Insurance]	Divide by 12 Months	New Monthly Escrow Payment
\$6,993.90 /12 = \$582.83		

Tax Insurance Type	CURRENT Annual Amount	NEW Annual Amount
City Tax	\$4,980.16	\$5,293.90
Hazard Insurance	\$1,319.00	\$1,700.00
Annual Amount	\$6,299.16	\$6,993.90

**Other taxes/other insurance may include school district, village tax, water & sewer, irrigation, agency fees, ground rent and windstorm insurance.

3. Your Escrow Details

A shortage occurs when the anticipated escrow balance is less than the required minimum escrow balance. The **required minimum escrow balance** is the lowest positive balance allowed in the escrow account at any given time.

Required Minimum Escrow Balance	\$2,914.08
Anticipated Escrow Balance	\$2,099.81
Shortage Amount	\$814.27

We require the escrow account to always maintain 2 month(s) of monthly escrow payment. This helps us minimize the impact to the monthly mortgage payment when property tax and insurance rates increase See Section 4 for details.

We determine the **anticipated escrow balance** using the current tax and insurance expenses and the anticipated escrow payments for the upcoming year. See Section 2 for details. To balance the account, we compare the estimated lowest account balance to the new anticipated escrow balance. See Section 4 for details.

The difference between the required minimum escrow balance and the anticipated escrow balance can leave a shortage or overage. Based on our review, there is a shortage of \$814.27.

4. Anticipated Escrow Amounts

Over this period, an additional \$13.08 was deposited into the escrow account for interest on escrow. Over the next 12 months, we project the following activity will occur in the escrow account. The required minimum escrow balance in the account should be no less than \$1,165.65 for the upcoming year. This is known as the low point and is indicated as LP below. The anticipated lowest account balance of \$351.38 will be reached in July 2026. The difference between the required balance of \$1,165.65 and the anticipated balance of \$351.38 resulted in an escrow shortage in the amount of \$814.27.

Date	Description	ANTICIPATED AMOUNTS PAID INTO THE ESCROW ACCOUNT (\$)	ANTICIPATED AMOUNTS PAID OUT OF THE ESCROW ACCOUNT (\$)	ANTICIPATED ESCROW BALANCE (\$)	REQUIRED ESCROW ACCOUNT BALANCE (\$)
Opening Balance				\$2,099.81	\$2,914.08
